The blue mark on your paper means subscription out and paper starts at once.

### AGENTS WANTED

We want energetic hustling agents for this paper and will pay liberly for good work. If you want to make money, write at once to—W. H. Twine.

The immoral teacher and immoral preacher must go. They are twin evils and should go to the twin hells.

And they have a Riot gun at the U. S. Jail for reporters and mobs. (so says the Democrat) According to the Democrat the reporter and the mob are in the same class.

Our people should remember that a good rousing, safe Republican majority at this election will go a long ways toward sounding the death knell of that pet scheme of the Democracy to establish Jim Crow coaches and other Jim Crow laws in the new state.

Thirty business men left the city Tuesday morning for a trip down the Arkansas river to Ft. Smith, on a business tour. They will impress all the towns along the route that Muskogee is a good town to trade with and no doubt make trip a profitable one for all concerned.

The Blade with Humes et al have exploited themselves to a Queenes Taste on the Masonic condition and have satisfied themselves that the Masonic frauds on the north side are "It" They have rushed into print with a letter from Texas, that says nothing and means nothing. The frauds are still frauds.

Time is proving that the Republicans have perfect harmony while the enemy are at war among themselves. The multiplicity of candidates among the Democrats is a great deal worse than the lack of aspirants in our camp. We have just enough and they have too many.

We hope to see the different Wards send their very best men to the convention. This will mean that only the very best men will be selected as candidates and that a ticket that

will win will be selected. This the party demands and will be satisfied with nothing less.

The white men and Negro women who stroll to the First Baptist Church after night to practice social equality must find other localites or they will see their names in cold type. One of the members have taken their names and will give them out unless a halt is called at once.

If Congress will just let us dam the Grand River we will accomplish that duty on short notice and proceed to dam common ordinary street corner loafer who needs it equally as bad as we need to dam the river.

The political preacher is doing some fine side stepping, just now he is planing a charge on the Democrat sack and organizing a foraging expedition on the Republican bread wagon.

The Cimeter is reaching all parts of the South and we are glad to see our people turning their attention to the Territory. Every day brings mail asking about the price of city and country property and day by day the new corner is locating a home for himself and family. This is well and we bid others come and do likewise.

Now is the time for our people to come and locate in this Territory. Come before it is too late. Come and buy a home in a free country. If you cant buy 80 acres, buy 40 if not that then 20 if not that then 5 or even one but by all means buy a home. If you don't want a home don't come, we need no drones, we have enough of them now and want the present Crop to die out. White people with a few hundred dollars come here and get a start in life, then why not the black man do the same thing. Don't wait until the procession passes by and then come lagging on but get in the game now and help make it interesting. Do you catch our meaning?

Our City Central Committee has held a meeting and ordered that a convention be held on March 20th at which time a Republican ticket will be put in the field. We regret that our leaders have seen fit to let the Democrats take the lead in this matter but they possibly know best and we bow in submission to the dictates of our leaders.

It is not out of place however to say that as we are the dominant party we should take the lead and get in the game first; However all is well that ends well.

FROM HERE TO THERE.
